		\$28.78

Important Notes:

† For state by state Medicare Clinical Laboratory Fee Schedule, go to www.cms.hhs.gov.

**QW" modifier is added to report use of CLIA-waived test system(s) for Medicare/Medicaid claims.

**Depending on individual payer coding policies, it is possible that certain payers will require one of the following code scenarios:

- Influenza A, Influenza B: 87804QW* reported with 2 units of service
- Influenza A: 87804QW*, Influenza B: 87804QW*

Effective January 1, 2010, CPT 81025 DOES NOT require a QW modifier to be recognized as a waived test. Source: CMS Job Aid 6685.

Under Federal and State law, it is the individual provider's responsibility to determine appropriate coding, charges and claims for a particular service. Policies regarding appropriate coding and payment levels can vary greatly from payer to payer and change over time. Quidel Corporation strongly recommends that providers contact their contracted payers to determine appropriate coding and charge or payment levels prior to submitting claims.
